SCIENCE EUROPE STRATEGY PLAN 2021-2026

**A NEW STRATEGY & ACTION PLAN TO MEET THE
NEEDS OF AN EVOLVING RESEARCH ECOSYSTEM**

VISION AND MISSION

Our Vision

- Our vision is for a European Research Area with optimal conditions, to support robust education, research and innovation systems. This is a European Research Area where science is a strong and trusted component of sustainable economic, environmental, and societal development.

Our Mission

- Our mission is to define long-term perspectives for European research and champion best-practice approaches, ensuring high quality science for the benefit of humanity and the planet.

VALUES

- We **consider** scientific knowledge to be for the common good and that research is a public service.
- We **value** and **protect** the freedom of scientific inquiry and the self-organising nature of the scientific research system.
- We **acknowledge** the responsibility of all actors in ensuring the highest possible standards of quality, ethics, integrity, inclusivity, and openness, in the conduct and management of research.
- We **recognise** the strong links between research, education, and innovation.
- We **believe** that collaboration within the R&I system and engagement with and for society are constitutive elements of science. They are vital to its effective and efficient functioning.

STRATEGIC PRIORITIES

**SHAPE EUROPEAN RESEARCH
